Generation was a superational and the property of the relief that I have received from the case of water sent may. My can was trily a said one, and slight palliation all that I looked for, but to feel as in my boshood and prime again—to stand in the pulpit as when in my prime, assemed out of the question; and yet so it is. God bless you my heart says. I return case and empty bottles to-day to be reflief, and shall wait impatiently for its return. I could not refuse sending some of the water to persone who were suffering as I was, and in every instance the relief was the same. Inspecting Our Streets.

A committee from Toronto, Canada, consisting of Hon. Wm. Carlyle, Alderman Krenan Jones, Chief Engineer Sprout and Berretary E. P. Roden of the Board of Public Works, arrived to the city yesterday to inspect the streets. They spent the day driving about the city and this moraing called on the Commissioners for toformation in regard to our system of paving. They will remain here till the middle of paxt week.

I Had a Drensful Cough, and taised a considerable amount of blood and matter besides, I was very thin, and so west I could careful go about the house. This was the case of a man with consumption srising from live complaint. He recovered like best complaint. He recovered like best cought by the use of Dr. Picrois "Golden Medical Discovery." Thousands of others bear similar testimony.

CARLIN SPRINGS.

To All Monand Women of Moderate Means, or Who Receive Stated Sal-

We wish to lay before you a novel method by which you can invest a small amount of money, and, at once, not only receive full value for the muscy invested, but obtain an equal interest in the sale and disposal of other valuable property.

The property known as

CARLIN SPRINGS has been placed in our hands, to be disposed on in the rollowing liberal manner.

A syndicate will be formed, which will be composed of 200 chares, each alare representing a vote. The par value of these shares will be \$100, payments to be male as follows: First payment, \$10, and thereafter the monthly payment of \$10 each. Any person desline so to do may take two or more shares. of in the following liberal manner:

WHAT YOU WILL GET FOR YOUR MONRY,

what you will der you four money.

As soon as the syndicate is complete and four payments of \$10 per share are made, a bond for a perfect tille will be given for a building lot at Carlin springs, containing not less than six thousand square feet of ground, say a lot box150 feet, at 15 cants per square foot, and, on completion of payment of \$200, a deed in fee will be given.

The Carlin Springs property consists of about 134 acres. The sublivision of 360 lots will, with the street, abort about 60 acres, leaving, undisturbed, 74 seres, or more than half of the property. Now mark These 34 acres will be owned in common, by the members of the syndicate to hold, improve, or sell, as a majority of the stockholder shall, by vote, determine. We will, further of, describe the beauty and value of this common property.

But Trings is TET MOME TO BE TOLD.

There is on the place the bionse occupied by the former owner, with a good well and outbuildings, worth about two thousand dollars.

When the avendicate is full, and one half.

When the symmetric the present owners guarantee to erect on other lots at least two cottages worth not less than \$1,000 each, as a nucleus of a village, which will be made over to members of the symilatic as herein after shown.

THE DESTRIBUTION OF THE LOTS.

THE DESTRIBUTION OF THE LOYS.

When the syndicate is complete, and four wonthly payments have been made as hereinbefore provided, the choice of location shall be determined by drawing, said choice to be restricted to lots on which there are no dwellings. In no other manner could a partition of the lots be made by which all would stand on an equal footing. When a member shall have selected a lot, a contract for a deed will be given, and when ten payments of ten dollars each have been made a deed in few will be given, and when ten payments of ten dollars each have been made a deed in few will be two-coulted.

SOMETHING STILL FURTHER.

When final payment shall have been made on all of the shares, the lots on which the present owners may have creeted houses will be turned over to the syndicate, absolutely, for such disposition as a majority of its members shall agree upon.

SCHMARY.

For the sum of \$100. ned in easy install-

SUMMARY.

For the sum of \$100, paid in easy installments, each shareholder gets:
First—A building lot of 6,000 square feet,
absolutely.
Second—A proportionate interest in seventy-feur acres of valuable land.
Third—A chance to become the possessor
of one or more of the houses.

DESCRIPTION OF THE PROPERTY. Carlin Springs is within that portion of Virginia which was formerly embraced in the District of Columbia, but which was

the District of Columbia, but which was retroeeded to the State.

Taking the ears at the very convenient depot of the Baltimore and Potomae Railroad at Sixth atreet, the place is reached in twenty-five minutes.

It is on the line of the Washington and Ohio Railroad, about seven miles from the Sixth street depot.

It is four miles this side of the enterprising village of Falls Church.

It is four miles from Georgetown, the road leading to and from the two points being an attractive one.

The railroad skirts along the boundary of, and for a part of the way through, the land for three-quarters of a mile.

There are fully 184 acres in the place, bying in two connecting tracts. The greater portion of the property is woodland, consisting of a heavy growth of hardwood trees, with occasional groves of pign. There are many groves of primitive oaks, such as are found at Arlington Heights.

Two important water courses mark the houndaries of the farm the largest, knowness Four-Mile Rau, forms the valley through which the railroad is built. This stream is of surpassing beauty. It has a rapid fail over a rocky bottom, and at all times of the year is well supplied with water. At a very slight expense sufficient water power could be obtained to supply a village with water and with electric lights.

The other stream is called Lovers' Run, and almost equals the other one to volume.

and with electric lights.

The other stream is called Lovers' Run and almost equals the other one in volume of water. Both streams are supplied by living eprings, and both which through pleasant valleys and picturesque dells of rugged wildness and surpassing beauty. Good quarries of binesione have been uncovered on both streams.

EXCURSION OROUNDS. For many years Carlle Springs has been a favorite excursion ground for the people of Washington and Alexandria.

The grounds used for that purpose a The grounds used for that purpose are adjacent to the railroad and to Four-Mile Run, but will be sufficiently remote from the platted portion of the place ts secure immunity from any possible annoyance.

On the grounds there are two springs, well improved, of pure, cold water.

There is also a large partition, 30 by 80 feet, and a capacious dining-room and

valed. By proper management these grounds alone could be made to pay an annual rental of \$1,000. They are, of course, included in what will constitute the "property in common."

We state with great positiveness that no more healthful region can be found than Carlis Springs and its immediate surroundings. It is far beyond the malarial belt, highly elevated above tide-water, and emplied with water which not only preserves, but restores health.

THE FUTURE OF CARLIN SPAINGS.

We place this property in market, basing

We place this property in market, basing our figures on values of to-day, and giving to the proposed syndicate the benefit of future enhancement. The "boom" for Virfuture subancement. The "boom" for Vir-ginia suburian property is now in its in-fance, but that it will grow to wonderful prepartions within the next two years is in-evitable. In the first place, ashurban prop-erty on the Maryland aide of the Potomac bas attained to the prices of city lots, and persons of moderate means must look else-where for homes.

Herstofore the great drawback to prop-erty on the Virginia side has been the ex-cessive tolls on the bridge at Georgetown.

A VARE BRITOE,

erry on the virgina side has been the excessive toils on the bridge at Georgetown.

A WARE BRIDGE,

which is now under contract, will be completed in October, and is to be a liberal one
in all of its appointments. It will be higher
than the present structure, much wider,
with easy approaches, without draws, and
free from all the annoyance of steam cars.
When completed the roads on the Virginia
side will become the favorite drives of our
crizens, leading, as they do, over highlands
replete with heautiful and diversified
scenery. It will be the opening of a region
berstofore but little known, although at
one time comprising a part of the District
of Columbia. Carlin Springs is a short
four-mile drive from Georgetown, in part
over the Government road leading past Fort
Moor and Arlington. If to this be added

WHAT NAV HE DONE BY CO-OPERATION.
When the final payment is made on all o the lots, it will be a business necessity for the members of the syndicate to organize it

the members of the syndicate to organize in some form by which the property held in common may be handled.

When this is done they can, if so minded, largely enhance the value of their possessions by entering into turnius plans looking to the development of the place.

By agreeing to pay 37 each monthly for twicks months the sum of \$5.00 would be reased, may unfilled to build a hotel, which could be readed at a good interest on the investment, and which would add greatly to the value of the entire plant, in the same way other profitable improvements could be carried on, for it is astonishing what can be done through co-operation. All that a capitalist does, however large the enterprise, may be done by persons of small means auting in a co-operative expandity. These, however, are suggestions only to be acted upon in the future, and form no part of the present plan.

ture, and form no part of the present plan.

ANOTHER OFFER.

So firm are we in the conviction that this scheme presents the safest, most attractive and profitable investment of anything which has heretofore been placed before the public, we are willing to turnish free fromposition for a visit to the grounds to any one who, in good faith, desires to invest in the syndicate. We ask no one to take our word, but do sak that you go and see the place for yourself and you will find that we have understated rather than overstated its attractions.

Not only will you see the property as it now stands, but will be forced to concede that a place like this, in such close proximity to Washington, Georgetown and Alexandria, must inceviably enhance is value with each succeeding year, and that not more than twelve months will be needed to turning it up to twice its present value.

Further information can be obtained from the undersigned, who will also be prepared to furnish maps and plats of Carlio Springs and vicinity.

The undersigned are the sole owners of the Carlin Springs property, now being placed on market by Mears, Baxter & MacGowan and Matthew Trimble, and we guarantee a perfect title to all lots to be sold in accordance with the circular issued by them, also a perfect title to the syndicate for all lands not included in the platted portion of the property. We also confirm their statement as to the building of two additional cottages, and hereby agree to build the same and deed them to the syndicate as proposed in said circular.
